2.12 How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes:

➤ **Curricular Aspect**

• **Provisions for slow and advanced learners**

✓ **Slow learners**

Assignments were regularly given to students and written by them completely. Every subject teacher dictated special notes to them for taking the revision of important chapters.

✓ **Advanced learners**

Advanced learners were given special concession in the library. Reference books were made available to them for the sake of increasing their general knowledge.

• **Syllabus completion**

Every teacher completed his syllabus in accordance with the annual planning. The Head of the Department examined at the end of every month whether the syllabus is completed or not.

• **Assessment of students' performance**

Students were asked questions in order to bring their concentration to studies and to understand their intellectual capability. Class tests, tutorials and seminars were taken and held in order to assess students' subject knowledge according to the rules of university examination.

• **Synoptic and Comprehensive notes**

Every teacher dictated latest and simple notes to the students on the respective subjects.

➤ **Co curricular aspect**

• **Study Tours**

The study tours were arranged with prescribed objectives according to university guidelines and subject to the curriculum frame work of the respective subject.

• **Class seminars**

Almost all departments arranged class seminars on different topics to sharpen the oral skills of the students.

• **Projects**

The projects were submitted for internal evaluation for 100 marks in all the teaching subjects.
The project work was meant for B.A. III only.

Annexure iii

1. Title of the best practice: Blood Donation and Health check up camp for girls.

Goals:

- To spread awareness in students regarding the importance of blood donation,
- To overcome various issues regarding health in girl students.

The Context: Today our society is need of blood for the people at various stages. Blood donation is one of very important activity carried by various institutes and NGOs. So there is a great demand for voluntary blood donors. Hence to carry out this activity, importance of blood donation should be conveyed to the students. Majority of girl students are found to be facing in various health issues like abnormal haemoglobin, low weight, improper diet and various deficiencies.

The Practice: Blood donation camp was arranged twice in a year. We invited Bhagawant Blood Bank, Barshi to conduct one day blood donation camp in our college campus. Student voluntarily donated their blood. For girls check up, we have invited a group doctors from rural government hospital, Paranda. They conduct a health check up camp for a day in which they carry activities like haemoglobin check up, weight, blood group, and suggest required measures to be taken to overcome the deficiencies.

Evidence of Success: This practice benefited girls to improve their health and become aware about the health related issues. The activity of blood donation made the volunteers society oriented.

Problems encountered and resources required: Girl student do not come forward at their own with the problem they are facing regarding health. So it is difficult to reach each and every girl student and consult them about the issue. Well trained doctors with more medicinal faculty.

2. Title of the best practice: Various programs regarding eradication of superstition in students.

Goals:

- To make students aware of wrong practices of superstition followed in our society.
- To change the view of students regarding superstition and to develop scientific approach.

The Context: Today in our society there are various false superstition practises are followed. People are attracted towards this wrong practice and are cheated. Due to which there great loss of our society in

terms of money, time and intellect. So to overcome this problem there is need to make the society aware of this false practise.

The Practice: We arranged a special one day camp regarding eradication of superstition in our college campus, in which students are the participants. We also invite some speakers to give lecture on this topic. We have also organized two days workshop on gender sensitization.

Evidence of Success: Students understood that the so called monks are actually deceiving the society through there false practises. This brought a change in their view regarding superstitions. This transformation not only remained limited to the students but it brought change in their family.

Problems encountered and resources required: Especially girl students are so entangled in various false practices of superstitions that it is not enough to conduct workshop and camps to eradicate this practise.
